KING PLASTIC APPOINTS NEW REP: FOUST MARKETING

NORTH PORT, Fla., January 2, 2006—King Plastic Corporation today announced the appointment of Foust Marketing as manufacturer’s representative for two King territories—including several states that previously did not have representation.

Effective today, Foust will cover Mississippi, New Mexico, Missouri and Kansas, states previously not covered by a representative, as well as an existing territory in Texas, Oklahoma, Louisiana and Arkansas.

“The Foust team combines high-energy and smart engineering consulting with professionalism and personality,” said Lou Stegner, King Plastic sales manager. “In addition, they have excellent coverage of the territory due to their offices in Austin, Houston and New Orleans.”

Foust Marketing is a leading manufacturer's representative organization offering high-quality engineered products and services. The firm has more than 40 years of combined experience and a value-added approach that includes quality products, product specifications and excellent customer service.

"We specifically wanted to represent King due to their reputation for supporting distribution," said Bryan Foust, president of Foust Marketing.

"This, combined with their high level of quality products and services makes King a great addition to our quality product lines."

The Foust team also includes Jerry Weathers and Sam Hubbard.

Founded in 1968, King Plastic Corporation is a leading manufacturer of quality polymer sheets, slabs and massive shapes—including several products pioneered by the company. Its polymers are sold worldwide through a network of leading plastics distributors to customers who fabricate products for the marine industry (King StarBoard® brand), signage, food service, neutron shielding, construction, industrial and other applications. The company headquarters is a state-of-the-art, 150,000 square-foot manufacturing facility in North Port, Florida. Visit www.kingplastic.com for more information.
